

Dear Support staff, Doctors and Nurses,

You may not know us and we may not know you personally, but our hearts are touched by each and every one of you. While the rest of the world is "safer at home" you show up everyday. While the rest of the world is retreating from harm's way, you are moving in. While the world stocks up on supplies, comfort foods and amenities, you fight to save lives.

Called to Continue the Healing Ministry of Jesus...

You have families, responsibilities and worries the same as everyone else. You are the real heroes. Never before have we witnessed the true ministry of Ascension being lived out in such a beautiful and powerful way.

The Ascension founders rooted this organization in the loving healing ministry of Jesus. You continue to do what you can to heal the sick and bring comfort to the suffering. In a time of much uncertainty you work long hours and you join together as a community in your work groups to solve the problems that arise from limited supplies and resources.

In their being and their actions, these persons were a living sign of God's love and healing presence.

You go to work knowing that you could become sick too. We applaud you! We want you to know how very much you are appreciated. We want you to know how much we admire the work you are doing. We want you to know that we think of you and keep you in our prayers.

...they heard the Good News of God's dream for the world – the full flourishing of every human person, a unity of the human community marked by peace and justice.

Most of all, we want to thank you and to let you know that what you are doing during COVID-19 is not going unnoticed. We are so proud of the work you have done and continue to do to keep our hospital system saving lives and living out the commitment, the mission and the legacy of Ascension's founding leaders.

Sincerely,
All of us at Ascension WI EAP
